Lancaster Farming

VOL. 6. NO. 18 | Lancaster Farming, Saturday, March 25, 1961 | $2 Per Year

ANYTHING FOR THE PROMOTION OF THE POULTRY industry, seems to be the ding of these members of the Lancaster Poultry Association. The costumes he ped ry out the Saint Patrick's day theme when the association gave away 3,000 green-dyed rd cooked eggs on the square in Lancaster. As they appeared at a meeting at the Poul- Center Tuesday night, left to right, Eugeene Cassel, chairman of the egg promotion mmittee; June Sangrey, office manager at the Poultry Center; Charles Warfel, secre- y of the assn., and Benjamin Burkholder, vice president of the assn. L.F. Photo

Egg Processors See All Plant Grading Soon

In a few years all the eggs produced on Lancaster County farms will be graded by the processor, one egg dealer told poultrymen on Tuesday night.

Speaking on a panel, "Producer versus Processor Grading of Eggs", John Copenheaver, Elizabethtown egg dealer, said he sees the day in the near future when all egg grading will be done by the processor. He cited the demand of consumers for a more uniform pack and said most farmers do not have accurate enough equipment for the large shell egg outlets. Copenheaver said about 90 per cent of the eggs coming to his plant arrive as gathered on the farm -

Richard Sauder, New Holland, speaking in behalf of Victor Weaver, Inc. said that plant is now buying 100 per cent ungraded eggs. He said he is in favor of in-plant grading for several reasons.

He agreed that processors can give the consumer a more uniform pack Processors who grade eggs in the plant can spot troubles a producer is having and help him correct his mistakes, he said. He concluded by saying, "Farmers should never grade eggs when someone else can do it more efficiently."

Producers on the panel at a meeting of the Lancaster County Poultry Assn. Tuesday night were generally in favor of farmer grading of eggs, but at least one producer said he grades eggs mainly because he has the equipment and has always done it

Henry Reist, Mount Joy said, "It is interesting to watch egg quality drop as hens get older." He felt that producers grading their own eggs could have a better control of the quality of their eggs.

Harry Houser, Lancaster R7, recalled how his father put the eggs in a basket and

g. Center Architect ired By Directors

he Lancaster County Agulture Center came one nearer realization this k with the hiring of an hitectural firm to draw liminary plans for the lding

evi Brubaker, chairman the finance committee of Agriculture Center board directors said this week,

boundary lines and elevations of the proposed building site have been supplied to the firm of Haak and Kauffman, Myerstown.

The architects will make preliminary drawings and return them to the board of directors in about 3 weeks, Brubaker said. All elevations of the proposed east-west bypass were supplied by the Penna. Highways Dept. and included in the report to the engineering firm, he said.

Planning for the proposed Agriculture Center began last year with the anonimous donation of a parcel of eight acres of land and $100,000 in cash. The cash donation carried the stipulation that it would be matched by other funds contributed by county farmers and others interested in agriculture.

No solicitation of funds will be made until he fall of 1961 Brubaker said. "By then we should know how much will be needed" he said.

Panel To Discuss Corn Growing At Solanco YFA

A panel discussion on growing high yielding corn will be the feature of the next meeting of the Solanco Young Farmers Association

Panel members will include winners in state corn growing contests as well as producers of outstanding yields.

James Jackson, Christiana R1, one of the top scorers in the Pennsylvania state five-acre corn contest will lead off the discussion of what it take to produce top yields. Backing him up will be J. Zeigler Hess, Quarryville R3, poultryman and corn producer who dries much of his crop. Robert Henney, teacher of vocational agriculture at Warwick High School will tell how he grew nearly 100 acres of corn with minimum tillage (wheeltrack planting) Paul

Fruit Growers And Beekeepers Plan Joint Meet

County Beekeepers and Orchardists will be given a look at agriculture behind the Iron Curtain at a joint meeting of the two groups next month.

Dr. Carl Bittner, extension fruit specialist from Pennsylvania State University will present an illustrated talk showing the highlights of his trip to Russia last summer at a joint meeting of the County Beekeepers and the County Fruit Growers, on April 14.

Dr. Bittner, well known to orchardists of the Lancaster County area will contrast farming under a free society with the problems of farming under the domination of a communist form of government.

Reservations for the banquet, scheduled to begin at 6:30 p m at Hostetters Banquet Hall, Mount Joy, may be made at the County Agent's office, Lancaster, or with Walter Becker of Mt. Joy R2, Ralph Gamber of 910 State Street, Lancaster, or Roy Erb, 118 Kreider Ave Lancaster.

William Clarke, Extension Beekeeping Specialist from PSU will also be on the program, it was announced this week

Garden Spot 4-H Holds Election

Wilmer Wenger, 76 Green field Road, was elected president and County 4-H Council representative by the Garden Spot 4-H Community Club at a recent meeting in the Smoketown Elementary School.

David Denlinger, of 2351 Horseshoe Road, was named vice president of the club Other officers elected were Elaine Stoltzfus, Ronks R1, secretary: Joyce Denlinger, 602 Enfield Road, treasurer; Lois Ann Overgaard, Lancaster R4, news reporter; Don ald Kraybill, 599 Lampeter

(Turn to page 7)

Agri. Council To Hear Wood

Agricultural legislation on the state level will be the main topic of discussion at the meeting of the Lancaster County Agricultural Council next week.

Norman Wood, Pennsylvania House of Representatives, the featured speaker at the meeting, will direct his remarks toward agricultural developments dealing with legislation on the state level.

Time will be allotted at the March 30 meeting in the Lancaster County Farm Bureau Auditorium, for general discussion and questions. The program is scheduled to begin at 7:30 p.m.

Other items for discussion will include Ag-Business Day - 1961, the Agricultural Center Building progress and future programs for the year, according to Charles Cowan, Council president

FIVE - DAY WEATHER FORECAST

Saturday - Wednesday

Temperatures during the next five days are expected to average near normal to as much as 9 degrees above the normal range of 33 at night and 55 in the afternoon. Milder temperatures are expected Saturday and Sunday and again Tuesday and Wednesday. Monday will be cooler. Precipitation may total 0.1 to 0.5 inches occurring mostly as rain late Tuesday and Wednesday. Rainfall during March has been about four inches, a little higher than normal. The all-time record of 59.4 inches of snow in any season has been passed. The new record is 59.6 inches.

At Lancaster Yards

Slow And Mostly Steady

CATTLE 4050 compared with 3836 last week. Supply included 50 percent slaughter steers and 40 percent stockers and feeders. Trading was slow Slaughter steers were steady Cows steady. Bulls and stockers and feeders steady The quality of slaughter steers was best in several months. The supply of stock calves weighing under 600 lbs is increasing.

Slaughter steers: Six loads high - Choice and Prime 1124-1306 lbs. made 28.00, bulk of the Choice grade ranged from 26-27.25, several loads 1050-1250 lbs. 27 50-27.75 Good to low-Choice 23.75-26, Standard 21.50-23 - 75.

Cows. Cutter and Utility brought 16 25-18.25, Canners and low-Cutters 15.-16 25, with shelly Canners selling down to 13 00.

Bulls: Utility & Commercial brought 19.-22.50, Good grade 22 50-25.25.

Stockers and Feeders Good and Choice 800-1050 lb feeder steers sold for 24 50-26.50, Medium and Good 21.-25.00. Good and Choice 600-800 lb. stock steers brought 26 -27.75 Medium and Good 22.-26.50. Good and Choice stock calves commanded 27 -30.

CALVES 750 compared with 688 last week Trading was active Choice & Prime vealers were 1 00 higher, Good and below steady Good and Choice vealers sold at 29 -35, Choice and Prime 35 00-41 00, few 42.-43, Standard and low-Good 20.00-29., Utility down to 17 00.

HOGS 1900 compared with 1849 last week Trading was moderately active All classes were steady early but barrows and gilts closed 25-50 lower at mid-week

Barrows & Gilts U. S 1-2 190-225 lbs sold for 19 50-20.50, no 1 190-225 lbs. 20 - 50-21 00 few to 21 50 (this kind absent after Monday), 1-3 190-230 lbs. made 18.50-21 few to 21 50 (this kind absent after Monday). 1-3 190-230 lbs. made 18.50-19.25, closed at 18.50-18 75, few lots mostly 2-3 grade 18.50.

Chicago Cattle

Receipts Lowest In Three Weeks

CATTLE—Receipts slightly larger than last week, largest in three weeks, but 5% less than the corresponding period a year ago. Rank and File good to low prime steers reached new lows since last November.

High prime steers, choice and prime steers weighing 1500 lbs up and all weight steers standard and below steady to 50 lower than late last week, all other weights and grades steers 50-100 lower. Heifers 50-1 25 lower, Average good and better mostly 1.00-1.25 lower. Commercial cows steady to 50 lower and other cows 50-1.00 lower after prices for cows last week had reached the highest levels since early June 1960 Bulls steady to 50 higher. Vealers fully steady. Stockers and feeders weak to mostly 50 lower.

Around a dozen loads of prime 1040-1360 lb. slaughter steers 27 75-28.25, early bulk choice and prime 950-1400 lbs 25 00-27.75, Late bulk 24.50-27.50, Closing bulk choice 24.50-26 25, average choice 1000-1050 lb. weights early up to 26 50, Bulk good steers the majority 950-1300 lb. weights, 22 - 50-24.00

Two loads high choice and prime 978 and 1138 lb. heifers early 26 25, load comparable grade 1050 lb. weights late 25.25

Commercial cows 16 50-18 00.

Most utility and commercial bulls 19.00-21 50, prices for bulls highest in more than a month.

Good and choice vealers 25 00-32 00, good & choice 750-1100 lb. feeding steers, the majority weighing 850 - 1000 lbs. 22 50-24.50, medium 975 lb feeders 21 00.

Vintage Livestock

Steers Sell Steady to Weak

Compared with last weeks market, slaughter steers were steady to weak at the March 21 auction at Vintage. Cows weak. Bulls opened 25-50 higher and closed steady. Receipts included 552 cattle.

Few head high-choice and prime 1110-1225 pound slaughter steers 27.60-28, bulk of the choice cattle weighing 950-1350 lbs. 25.75-26 85, good to low-choice 23.75-26, standard 22-23.50.

A few lots standard and good grade heifers 19-23.50.

Cutter and utility cows at 16.25-17.85, canners and low cutters 14.75-16.25, shelly canners down to 13.

Utility and commercial bulls 19 50-22 50, few good grade up to 23.

CALVES: 322 Vealers 1 lower. Good and choice veal ers 28.50-35, choice and prime 34-39.50, standard and low good 23-28, utility down to 19.

HOGS: 167. Barrows and grits steady. Few lots U.S. 1-2 202-222 lbs. 19-19.25. 1-3 197-215 lbs. 18.60-18 85, lot no 3 210 lbs. 18 25, two lots 127 and 147 lbs. grading medium 17.85-18, a few 1-3 305-605 lb. sows 13-16.

SHEEP: 32. Not enough on sale to establish a market.

New Holland

Slaughter Steers Steady

Receipts at the March 23 auction at New Holland included 1,118 head of cattle. Compared with last week's market, slaughter steers were steady. Cows were steady to 50 lower. Bulls were steady.

A few head of 1,050 to 1,150 pound slaughter steers grading high choice & prime made 27.25 to 28.10. The bulk of the choice cattle were 26 to 27.00. Good to low choice made 23 75-26.00 Standard sold down to 21.50

Standard and good heifers brought 18 50-21.50.

Cutter and utility cows brought 16-17.85 while canners and low cutters made 15-16.25. Shelly canners were down to 13.00.

Fluid Milk

Milk Supplies Show Increase

Production of fluid milk was reported increasing all along the east coast with sharp gains reported in many areas.

Bottling demand for manufacturing milk moved much of the excess over bottling needs as increased cheese production was noted and better inquiry was reported for whole condensed

A scattered demand for egg nog and related holiday items absorbed some surpluses The balance of surplus over class one needs moved to separators.

Wholesale selling price at New York was $5 00 to $5 05 per 40 quart unit of bottling quality milk.

FROM WHERE WE STAND -

Good Beds Won't Cure Insomnia

A friend of the family spent a night in our home recently. Small, modern houses being what they are, he was bunked on a fold-away bed in the living room.

When we inquired the next morning how he had slept on the not-too-soft sofa he said, "Oh, I slept just fine. Listen, I can sleep anywhere. I grew up sleeping on straw mattresses, but I guess you never did that, did you?"

Straw mattresses — but we called them straw ticks — were the arms of morpheus for the whole family. In fact when one of us would visit a friend overnight and be assigned a bed with a cotton mattress, we would have to battle a long time to get comfortable enough to go to sleep.

Fresh, clean straw in the summertime with nothing to hinder the air circulation provided a cool bed, and the addition of the feather tick in the winter assured us of a snug night even though there was no heat in the house.

Children in this day of high speed travel and a superabundance of hotels and motels do not realize what it is to have to share a bed with visiting relatives, or to have to give up the bed altogether so the visiting old folks would have a place to sleep.

"Company" in the days of our childhood, meant, more often than not, we would have "sleepers" at our house overnight.

When there was company in the house, the lucky ones had the straw mattress, and the extra lucky ones had to share the bed with only one other person.

Of course the boys, and presumably the girls in their room, would have a "ball" before all were settled for the night. And let it be said right now, it takes some settling when a bunch of boys in one room are trying to get to sleep with as many as three at the head of the bed and two more at the foot. The confusion, of course, was compounded if there happened to be a few more bedded down on a pile of feather ticks and quilts on the floor.

Dear reader, you have never lived if you haven't slept four or five in a bed with brothers, cousins and other assorted relatives. In the winter time, three brothers in a bed can be a cozy arrangement, and we were thankful for two more warm bodies on long cold nights, but take it from one who knows, there is little comfort in being one of these at the foot of the bed.

But with all the lumps in the mattress, the fighting for cover, the scratchy toenails in the middle of the back, we never spent one night with insomnia.

There must be a lesson here somewhere if we can find it.

At least that's how it looks from where we stand.

Of Spilled Milk And Broken Eggs

There is no use crying over spilt milk.

Perhaps there is no use crying over a broken egg either, but when that egg is shaped like a bowling pin, it deserves some mention at least.

The editor recently received a letter from Mrs. Paul H. Neidermyer of Bareville R1, describing an odd shaped egg her husband had found in the henhouse.

Mr. Neidemyer, an avid amateur bowler, came in for quite a bit of good natured ribbing from his family and friends. He planned to preserve the egg to show to skeptics who doubted such a thing as a bowling pin egg.

Seeing a human interest story, we armed with camera, drove out to the Neidermyer home to record the peculiar hen fruit for posterity.

You can guess the rest. The egg was just as fragile as eggs are wont to be, and the albumin ran out of the shell just as albumin is wont to do when the egg is dropped.

The film in the camera went unexposed, and the apologies tendered by the photographer fell far short of expressing his disappointment at not getting the picture and his compassion for the family which lost such a conversation piece.

With Clinton Davidson

Fiscal Brinksmanship

Maurice H. Stans, former President Eisenhower's Director of the Bureau of the Budget, is an internationally known and respected expert on Federal government spending.

What he had to say about it before a farm group a few weeks before he resigned should be read by everyone who is concerned about how much Washington spends it for

"The pressures on Washington to spend more and more" he said, "are almost unbelievable Compared with the demand for spending, the demand for economy is almost nonexistent.

"Spending comes easily, as the public demands more and more from government In the past 30 years we have paid our bills only 6 times and have borrowed to cover our expenses 24 times," Stans said.

Easy Come, Easy Go

Government spending, Stans pointed out, has increased by more than 3,000 percent in the past 30 years Spending amounted to $3 billion in 1930, $9 billion in 1940, $40 billion in 1950, and $80 billion in 1960, he said.

"There is nothing to assure us that this increase will not continue," Stans said. "Higher ranges of future spending are already built into our present Federal programs."

The government has an "official' 'debt of $285 billion but, Stans said it has IOU's that amount to almost $500 billion additional in promises for future payments These include $60 billion in unfinanced pensions to military and civil retirees, $300 billion in veterans' compensation benefits, and $100 billion in unfinished construction and undelivered purchases.

If we are to pay off those IOU's as they come due, and continue present government services, the government must collect increasingly higher taxes, Stans warned

Inflation Aread

"We can," he said, "soon destroy the nation's vitality if we allow government to continue to purchase a policy of cancerous taxation which undermines individual initiative, diverts earnings away from capital investment and savings, and thereby limits the capacity of the economy to grow and expand."

We have predicted many times in these columns and in talks to business and civic groups that growing inflation will be continued We have

RURAL RHYTHMS

JUST LIKE A BOY
By: Carol Dean Huber

He wished that he might never see another ripe tomato,
Or ever have to stoop again to pick up a potato,
Or cut another cauliflower or a cabbage head,
But could spend each morning fast asleep in bed.

He said he hated every cow and every little pig;
He hoped every ear of corn would not be very big
All this he said to Mother — but to a neighbor lad
He boasted of the work he did when he was HELPING Dad

THE BIBLE SPEAKS

International Uniform Sunday School Lessons

BY DR. KENNETH J. FOREMAN

Bible Material: John 18, 19.
Devotional Reading: Psalm 22 1-8, 19.

How He Died

Lesson for March 26, 1961

IF YOU WILL take time to count the pages of the four Gospels, and then count the pages of the chapters telling of the trial, death and resurrection of Jesus, you can see for yourself that the events of those last days and hours are given space far beyond what is given to any other part of Jesus' life. It can even be said, as a paradox, that nothing stands out in the life of Christ as it was first written, as does his death. Not only in the Gospels but in the thinking of the church, the death of Christ looms large. Look at the pictures or statues of Christ in Protestant or Roman Catholic homes; how often he appears as a dead man!

Dr. Foreman

"I Thirst!"

At first this seems strange. Do not all men die? All men do, to be sure, but not always in the way, nor ever with the purpose, which the church has always seen in the death of Jesus. If on Good Friday in many a church three full hours will be set apart for meditation on the memory and the meaning of the Cross, all we can do here is barely to suggest some of the thoughts which that tragic and glorious story suggest to a sympathetic reader. One is that Jesus died by violence, died under torture, died in disgrace, for the penalty of crucifixion was inflicted only on slaves and savages. Jesus himself, looking forward to this event, had used the pain words "die," "be killed." He did not use any of the pretty word's that have been thought of, like a blanket of flowers over a corpse, to conceal the face of death. It was real death that afternoon, death in the midst of youth, death with much to say that could not be said, death without friends. Like a red underscoring of the mental distress spiritual agonies, was the phy agony of being crucified Ble slowly for hours beneath th sun, the sufferer's whole cried out for water. The on of personal physical distress was wrung from Jesus du those six terrible hours, how was just that desperate "I th

So we have to say of Jesus he died in torture But the word from the cross which records is not a word of pain of power: "It is finished" does not mean "All is over an admission of defeat It is shout of the victorious d after the battle, it is the cry up by the mountain climber after many perils sets his fo the topmost pinnacle never scaled, it is the outburst of engineer who after month planning and years of wo sees the span over the great complete at last. He had something very like this the before (John 17:4), so that must not think of the Cross a one and only achievement Jesus. The cross was the cr ing accomplishment Jesus and death were all of one p his death was "in character" his life. Every man leaves h unfinished in some respects leave behind us friends, chil a new generation, plans u led, words unspoken, work done. Even Jesus knew what it to wish to say things that not be said. And even his pe He has not had its full without other lives welded other into his living pur Nevertheless there was a all-all quality about Jesus had finished what no one else have done.

For Us

This is true, because, as Christian church soon came t Jesus' death was much more every-man's death. Alone uniquely it was on behalf o men. This in turn would not soon so if Jesus had lived a life; and it could not have so, even if our Lord had w unless his life was more tha one man in history. For the ch makes two great affirmation faith about Jesus Christ the first, he is not only a perf man, but he is Man, he sum in himself all the human ra is the Man. The other affirm He is the Divine Son of God.

Now Is The Time . . .

BY MAX SMITH

MAX SMITH

TO PRUNE GRAPE VINES — The month of March is the best time to prune grape vines; there will be less "bleeding" of juice coming from the cut, and less danger of knocking off the tender buds as they begin to swell Attempt to leave 40 to 60 good buds on four or five good canes The first 10 buds on last year's growth will usually produce the best

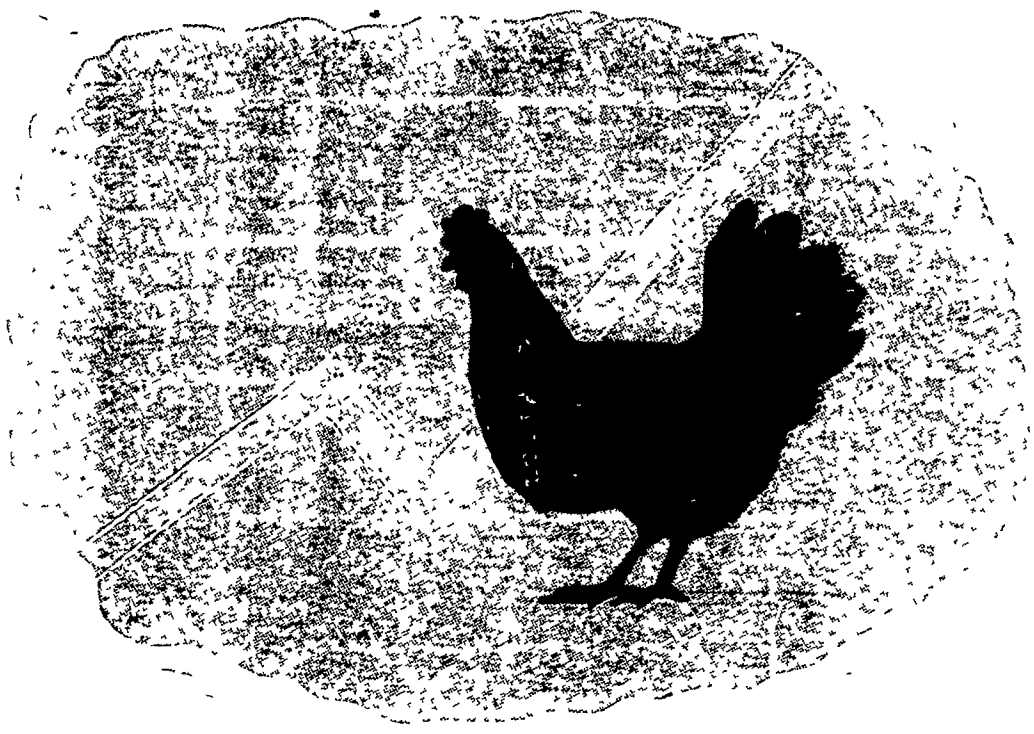
TO BE CAREFUL ABOUT WEED SEED — The weed population on many farms is increased through the use of uncertified seeds, many home grown seeds contain undesirable grass and other weed seeds. Local growers who are seeding spring oats are urged to plant clean, certified seeds in order to get the crop desired and not add o the weed problem.

TO PUT MANURE ON ROW CROPS—Numerous questions recently indicate that some local alfalfa and clover producers intend to apply barnyard manure to their alfalfa and clover fields yet this spring In the first place these legume plants should not need any extra nitrogen because they have the ability to fix nitrogen from the air Secondly, manure applied at this time of the year might cause trouble in raking at hay-making time. Run-down pastures or the normal row crops will utilize the manure crop much better

TO PRUNE ROSE BUSHES—It's pruning time for many roses when the new buds appear (Exceptions are climbers and rambler roses that should be pruned after they have bloomed). Hybrid teas, flouribundas, grandifloras, and shrub roses should all be pruned in early spring Roses should be pruned to cut away dead wood control the shape of the bush, and remove surplus growth for better rose and bud development.

MANAGEMENT . . .

Growth and development during the first 20 weeks determine the future productivity and profitability of your flock.



and a GOOD FEEDING PROGRAM for replacement flocks

A delicate balance of nutritive ingredients is required to grow chicks at the proper rate of development and give them the sturdy frames necessary for prolonged periods of high production.

STARTING PERIOD

AGE	EARLY-BIRD FEED	FEEDING PROGRAM
0-6 weeks	#3 Early-Bird Chick Starter	Get chicks on feed as soon as they arrive. On the first day, feed either cracked corn or crumbles, but not both Feed grit the first day and twice each week thereafter. Discontinue grain after first day.

GROWING PERIOD
Scratch and Mash Program

AGE	EARLY-BIRD FEED	FEEDING PROGRAM
7th week to 20th week	#6 Early-Bird Growing Mash	Feed growing mash and oats, gradually increasing proportion of oats to 50% at 9 weeks. For Leghorns, do not feed over 50% oats in confinement, but increase to 60% on range. For heavy breeds, oat feeding at 17 weeks to maturity may be increased to 66⅔%.
	#15 Early-Bird Growing Mash	Change from #6 Growing Mash to #15 at the end of the 12th week. #15 contains no coccidiostat.

All Mash Program

AGE	EARLY-BIRD FEED	FEEDING PROGRAM
7th week to 20th week	#32 Early Bird All Mash Growing Ration	This should be the only feed used from the 7th through 12th weeks.
	#41 Early-Bird All Mash Developer (no coccidiostat)	Start feeding #41 at the end of 12th week and continue as the only feed until birds are put into the laying house at 20-24 weeks of age.

For a complete feeding and management program . . . See your Miller & Bushong Service Representative or call us direct at Lancaster EXpress 2-2145.

Trimble, Quarryville R1, a three-year winner of the 4-H corn class at the Pennsylvania State Farm Show, will explain how he grows quality corn.

The meeting will be held in the Solanco High School at 7:30 p.m., March 30.

Panel Moderator will be Jack Owen, Editor of Lancaster Farming.

William M Fredd is Advisor of the Solanco FFA.

McDonald Farms Le Shining Star, a seven year old Guernsey, owned by J. Rohrer Witmer, Willow Street R2 produced 10,680 pounds of milk and 513 pounds of fat in 305 days She was milked two times daily

This Week

(From page 4)

said inflation is one of the greatest threats to our country. Stans told the farmers the same thing.

"At the end of this horizon," he said, lies inflation, the final destroyer, which can cheapen our money, drive prices beyond reach, and cause untold hardships by wiping out the worth of our savings, pensions and insurance.

"How much longer," Stan asked, "can we continue down the road of financial brinkmanship?"

4-H Poultry Club Championship Is Won By Carolyn Wilson

Carolyn A. Wilson, daughter of Mr. and Mrs. William H. Wilson, Bareville R1, led all competition in the Lancaster County 4-H Poultry Club roundup Tuesday night.

Carolyn, a 14 year-old student in the ninth grade at Manheim Township High School, won the trophy in her second year of competition in the club to keep the trophy in the Wilson family for the second consecutive year. Last year, Carolyn's brother, Robert, scored one tenth of a point higher than his sister to take the championship trophy.

Leslie Kreider, son of Mr and Mrs. Marvin Kreider, 690 Hartman Station Road, won the runner-up cup to push last years' winner into third place.

Only three and a half percentage points separated the five highest scores in the contest. Top score of 99 points out of a possible 100 was one full percentage pt. above Leslie Kreider's score of 98.

Robert Wilson scored 97 5 for third place; J. David Lapp, Bareville R1 scored 95.75, and William Wilson, another brother of Caro took fifth place with a score of 95.5.

Assistant County Ag Winthrop Merriam, pres ed awards to the win A trophy went to the ch ion, while the runne spot carried with it a A 4-H thermometer and member signs went to next three placings.

Judge of the exhibits the roundup was Carl Du Extension Poultry Specia from Pennsylvania S University.

WINNERS IN THE 4-H POULTRY club roundup week are, left to right, Carolyn Wilson, Bareville R1, Leslie Kreider, 690 Hartman Station Road, Miss Wil who finished second in the contest last year beat out other competition Tuesday night at the Poultry Center LF Ph

NEW HOLDING PENS AT VINTAGE Sales Stables should be completed in about our to six weeks The completion of the new pens will make room for expanding receipts at the Tuesday night auctions At present time pens must be emptied and filled again during the sale, but when the addition is completed holding pens will be empty at the start of each auction —L.F. Photo

Vintage Barn Additions Are Nearing Completion

Additions to the holding pens at the Vintage Sales Stables should be ready for use in four to six weeks, a spokesman for the organization said this week.

The addition of more than 50 per cent more area than is now under roof at the sales barn will make it possible to move cattle easier and faster during the weekly sale, according to Frank Dussinger, sale manager.

Dussinger said the workmen are making good progress and the new pens should be ready for use in about a month to six weeks.

The auction, held each Tuesday night, sells fat cattle, stockers and feeders, veal calves, hogs and sheep At the sale this week a total of 1,076 head of livestock

FRANK DUSSINGER

crossed the block.

Buyers at the auction represented meat packers from Philadelphia and Baltimore as well as many local butchers Many of the light cattle going through the ring are returned to farms in the area for further finishing

Since The U. S Department of Agriculture Market News report began covering the Vintage sale last year sales have been steadily increasing until addition of the new pens became necessary.

For the Farm Wife and Family

A Lenten Breakfast

By Mrs. Richard C. Spence

The Easter season is a time of triumphant celebration. But long before the time of Christ, a similar celebration was held, joyfully honoring the return of spring. Pagans worshipped their goddess of Spring, Eostre, by eating a special kind of bun Both the name, Easter, and the custom of eating hot cross buns have evolved from this ancient tradition.

During Lent, let your family share this charming Easter custom by serving delicious spiced Hot Cross Buns. For a special Good Friday breakfast, or any time during Lent, you can serve these Hot Cross Buns with pride because you've made them yourself.

HOT CROSS BUNS

1 stick (½ cup) margarine
1 package dry yeast
¼ cup warm water
¾ cup milk
⅓ cup sugar
½ teaspoon salt
4 cups sifted flour
1 teaspoon cinnamon
¼ teaspoon allspice
¼ teaspoon ground cardamon (optional)
1 egg
½ cup currants

Soften yeast in warm water (105 to 115 degrees) Heat milk in a 3 quart capacity saucepan until bubbling at edges Add margarine, sugar and salt. Cool to lukewarm. Stir in yeast mixture.

Sift together flour, cinnamon, allspice, and cardamon. Add half of flour to margarine mixture. Beat well. Blend in egg and currants Add remaining flour and stir to make a soft dough.

Turn dough onto a lightly floured pastry cloth or board Knead until smooth and elastic. Place in a bowl or saucepan rubbed with margarine. Twirl dough to grease surface. Cover and let rise until double in bulk. Punch down, turn, and let rise again.

Divide dough into 24 pieces Form each into a round bun, tucking edges underneath Place on a baking sheet which has been rubbed with margarine. Brush surfaces with slightly beaten egg white. If desired, cut crosses with knife or scissors. Let rise until double in bulk Bake in a hot oven (400 degrees) 12 to 15 minutes.

Frosting Crosses: Add enough sifted powdered sugar (about 1½ cups to remaining egg white to make a thick frosting. Pipe crosses onto warm buns.

* * *

Eggs are another "must" for Lenten breakfasts Why not try an omelet for a change A scrambled egg mixture, unstirred but lifted gently as it cooks, is a plain or French omelet, if you please. Basic to the glamorous puffy omelet is the combining of lightly beaten egg yolks with stiffly beaten egg whites Common to both types of omelets is the fact that a quick and tasty main dish can be prepared in minutes when there are eggs and butter in the refrigerator, a few simple seasonings in the cupboard, and a good skillet on the range. Learning to fold or roll an omelet is not much more complicated than turning a pancake. Here is a plain or basic omelet recipe for two servings.

FRENCH OMELET

1 tablespoon butter
4 eggs
½ teaspoon salt
2 tablespoons cream

Add butter to skillet and place over medium heat until bubbly. Combine eggs, salt, and cream. Stir until yellow is uniform and mixed well Pour into skillet & cook over medium heat until egg is slightly set and some liquid remains on surface Tilting the pan, lift edges of egg opposite handle with spatula. This allows uncooked egg to run under the edge of cooked mixture. Cover with lid for about ½ minute to allow surface to become creamy. If filling is used, spread it over the half of the omelet opposite the skillet handle. Tilt pan Fold

FILLING VARIATIONS FOR OMELETS

HERB OMELET

To the basic French Omelet recipe add ¼ teaspoon of thyme, Cook 2 tablespoons each finely chopped green pepper and celery in the skillet with a tablespoon of melted butter. Remove pepper and celery. Cook omelet as directed in French Omelet recipe. Combine ½ teaspoon chopped chives with ½ cup dairy soured cream. Spread cooked pepper and celery over half of the omelet, then add the sour cream. Fold and serve with tomato wedges. 2 to 3 servings

CREAMED CHICKEN OMELET

Prepare basic French Omelet mixture Combine 10½ ounce can condensed cream of chicken soup with 1 tablespoon finely cut parsley. Cook omelet. Spread soup mixture over omelet. Sprinkle with ½ cup toasted sliced almonds. Fold and serve at once. 3 to 4 servings.

HAM OMELET

Add 10 crumbled basil leaves to the basic French Omelet recipe Fill with a combination of ½ cup cooked diced ham. 2 tablespoons mincemeat, and ½ teaspoon lemon juice Fold and serve. 2 to 3 servings.

SPANISH OMELET

Slice two franks in pennywise pieces. Combine franks with ¼ teaspoon chili powder, ½ cup canned tomato sauce, and 5 sliced stuffed olives Spread mixture over half of the surface of a cooked French Omelet. Fold and serve at once. 2 to 3 servings

SMOKED SLICED BEEF OMELET

Separate slices from one-fourth package of smoked sliced beef. Tear into bits Cut 1 medium onion into very thin slices. Cook the onion slices in 1 tablespoon of butter until transparent. Remove from pan. Prepare egg mixture for a French Omelet. Cook as directed in omelet recipe Arrange cooked onion slices over half of the omelet Spread with ½ cup dairy soured cream and sprinkle with shredded smoked sliced beef. Fold and serve at once. 2 to 3 servings.

SALAMI OMELET

Cut four slices of salami into little wedges. Prepare a French Omelet. Just before folding, sprinkle salami over half of the omelet. Squeeze strips of cheddar-flavored cheese-in-a-tube over salami. Fold and serve 2 to 3 servings.

* * *

Another kind of omelet—

BAKED OMELET

4 eggs, separated
½ teaspoon salt
¼ cup water
⅛ teaspoon pepper
1 tablespoon fat

Add salt and water to egg whites. Beat until stiff, shiny and whites leave peaks

(Turn to page 10)

MEYER Saves the Leaves

MEYER Hay Conditioner Model No. 675

Leaves Stay on Stems when SLOW ROLLED

MEYER Conditioning Rolls revolve slower . . . because they are fed by an exclusive, separate pick-up – and do NOT rely on high speed in order to pick up the hay. When high speed rolls are used, hay is grabbed up and forced through . . . leaves are lost With the MEYER, the hay is lifted and fed through the slower-moving rolls which thoroughly but gently crack the entire stems without crimping and gently press the leaves. The leaves a MEYER saves put more dollars into your pocket, yet MEYER is priced lower.

Condition while you cut Use your own mower with Model 675, or get Model 680 with built in-mower, a MEYER patented feature Model 205, without separate pick-up, is for use on smooth, rock-and terrace-free fields. Does superior job to crimper-type machine.

MEYER — maker of famous MEYER elevators — is the original and oldest manufacturer of hay conditioners — with over five years more experience than all other makes.

● Lenten Breakfast

(From page 9

when beater is withdrawn Add pepper to yolks and beat until thick. Fold yolks into egg whites Heat fat in large skillet (10-inch) until hot enough to sizzle drop of water Pour in omelet mixture Reduce heat. Level surface gently Cook slowly until puffy and lightly browned on bottom, about 5 minutes Lift omelet at edge to judge color Place in slow oven (325 degrees). Bake until knife inserted into center comes out clean, 12 to 15 minutes Fold in half 2 to 3 servings.

* * *

PIE PAN CHEESE OMELET

6 slices pasteurized process sharp American or Old York cheese
4 eggs
½ cup milk
¼ cup sliced pitted ripe olives
¼ cup chopped pimiento
¼ teaspoon salt

Remove paper separating the cheese slices Cut slices of cheese into quarters and arrange on the bottom of a 9-inch pie pan that has been rubber with butter or margarine. Beat the eggs slightly & combine with the remaining ingredients. Pour the egg mixture over the cheese Bake in a moderate oven (350 degrees) 25 minutes or until a table knife inserted into the custard mixture comes out clean Cut into pie-shaped pieces and serve hot

* * *

Another way to serve eggs

EGGS BECHAMEL

6 hard-cooked eggs
½ cup finely chopped onion
¼ cup butter or margarine
¼ cup flour
2 cups milk
1 tablespoon chopped parsley
½ teaspoon salt
⅛ teaspoon nutmeg
½ cup shredded sharp cheddar cheese

Shell eggs and cut into halves lengthwise. Remove yolks and mash Cook onion in butter about 5 minutes. Stir in flour. Remove from heat and gradually add the milk Add parsley and seasonings Cook gently, stirring as the sauce thickens Spread ½ cup of the sauce over the bottom of an 8x8 inch shallow baking dish Combine ½ cup of the sauce with the mashed egg yolks and fill the egg whites with the mixture. Place the stuffed eggs in the dish and cover with the remaining sauce Sprinkle with cheese. Brown in a very hot oven (450 degrees) about ten minutes. Serve hot on toasted buns, English muffins, or toast

* * *

If you're serving a Lenten brunch you might, like to serve your eggs like this:

EGGS MADRILENE WITH CHEESE

3 hard-cooked eggs
¼ cup sliced pimiento stuffed olives
1 tablespoon unflavored gelatine
⅓ cup cold water
2 tablespoons lemon juice
13 ounce can madrilene, heated
Lettuce
8-ounce package sliced Swiss cheese
8-ounce package sliced Cheddar cheese
½ cup mayonnaise
2 tablespoons pickle relish

Shell eggs and cut each in half crosswise. Place each half an egg cut side down in a custard cup. Arrange slices of olives around each Soften gelatine in cold water. Add lemon juice and gelatine to hot madrilene Pour madrilene mixture over each egg to cover. Chill to set. Arrange lettuce on a large chop plate. Unmold eggs onto the lettuce. Place slices of cheese around the eggs Combine mayonnaise and pickle to be spooned onto eggs from a separate bowl Complete the menu with hot rolls, relishes, cup cakes, and tea, or coffee.

Walnut Bottoms Pre Beauty, an eight year-old Guernsey, owned by J Rohrer Witmer, Willow Street R2, produced 13,130 pounds of milk and 636 pounds of fat in 305 days She was milked two times daily.

Best Food Buys

Built-In Maid Service Costs

What does convenience cost you as a consumer? In recent years the use of convenience foods with "built-in" maid service has been cited as the reason for much of the increase in food marketing costs. As a result, farmers are receiving a declining percentage of the food dollar.

These added marketing services have contributed to higher marketing costs, reports Tom Piper, Penn State Extension Marketing Agent. However, this may not be as great a factor as once believed.

Total sales of convenience foods are increasing. In 1958 they comprised 5½ per cent of total grocery sales Sales of precooked foods made up less than one percent of all food sales.

In 1958 the United States Department of Agriculture made a study of 63 serviced foods and their unserviced counterparts; that is, fresh peas versus frozen or cut up chicken compared to whole chickens. This study showed that for each $100 spent, the serviced foods cost only 61 cents more than the unserviced ones. The difference was less than one per cent

Increased costs due to more extensive processing and packaging may be partially offset by reduction of waste and spoilage. Orange juice made from frozen concentrate often costs about half as much as the same amount squeezed from fresh oranges at home.

To obtain good buys in food, economy-minded shoppers should consider the following factors: cost per serving, convenience and time saved, family preference and nutritional contributions Food costs can be controlled if you learn how to compare prices of foods in diferent forms — fresh, frozen, canned or a combination of these. Watch for food sales and watch for foods in season when supplies are most plentiful. A good buy may be one that gives the most satisfaction per dollar spent

In relation to today's income, food prices are at the lowest point in history.

SHOWN ABOVE ARE THE EIGHT RECIPIENTS of the chain gilts this year Left to right they are: Leon Weaver, Kenneth Martin, John Campbell, Gerald Allison, Eugene Zimmerman, Robert Mohler, Walter Musser, and David Weaver Last year, chain swine were presented to eight members of the Grassland FFA Chapter of the Garden Spot High School by four area organizations to encourage the production of registered swine in the New Holland Area. According to the contract, each boy receiving a gilt agreed to raise it with good management, produce a registered litter at the proper age, and return one gilt from its first litter to the FFA so that the chain will continue All the chain pigs have now farrowed and one pig from each litter has been given back to the FFA to be awarded to eight other boys this year. The four organizations who made this chain swine possible were Groff's John Deere Agency of New Holland, Constoga Landrace Farm, Earl Sauder's Feed Mill, and the Sears, Roebuck Foundation

Farmers Plan Less Tobacco, About The Same Feed Grains

HARRISBURG, March 20— Pennsylvania farmers plan to plant more acres to corn, hold the line on barley acreage and plant less oats, potatoes, tobacco, soybeans and hay this year

These intentions for the 1961 crop year were disclosed today by the Crop Reporting Service of the Pennsylvania Department of Agriculture following a statewide survey of farmers The report also disclosed that fewer acres are planted to wheat and rye this year than last

The nine principal crops of Pennsylvania will occupy a total of 4,997,000 acres for 1961 compared with 5 084,000 acres of the same crops planted for havest last year Compared with the 10-year average, all crops except tobacco show an acreage decline with the aggreagte total down 8 per cent

Total feed grain acreage will be 1 per cent less than last year Corn farmers intend to plant 1,299,000 acres, about 1 per cent more than in 1960 This increase is offset by the 4 per cent decline on oats acreage from 719,000 to 690,000 acres Barley acreage, most of which is planted in the fall, remains unchanged at 171,000

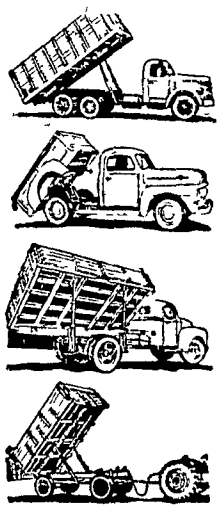
The acreage of food grains —wheat and rye—is down 3 per cent Winter wheat acreage is down 3 per cent to 530 000 acres and rye down 9 per cent to 30,000 acres The record snow cover during December and January protected the fall-seeded crops from freeze damage and wheat, barley rye and fall-planted hay fields are all in excellent condition.

Potato growers intend to plant 46,000 acres, the lowest on record Cigar tobacco acreage is expected to be about 1,000 acres below last year at 30,000 Intended soybean acreage is expected to be 10 per cent lower than last year at 30,000 acres

Actual acreages planted may vary from these intentions due to weather, price, new agricultural programs, or the effect of this report itself upon farmers' actions

Live pedestrians and successful men always think fast on their feet

HARSH HYDRAULIC HOISTS



The 32 available models come to you with a wide range of lifting capacities ranging from 3½ to 20 tons for your truck, pickup, or trailer. The smooth, trouble free-action of a HARSH HOIST has a fast lifting time of from 12 to 160 seconds, which allows more time for actual hauling

These hoists come to you at an average cost of only 16¢ a day as compared to the $10-$15 a day you now spend to manually unload your truck.

To design and build a light weight low-costing truck hoist suitable for all types of farm use, priced within the average farmer's budget was the aim of "Bud" Harsh when HYDRAULICS UNLIMITED MFG CO. began operations. This hoist was built and is now in use throughout the nation.

The HARSH HYDRAULIC HOIST averages only $328 52 (including Federal excise tax) and maintains a low taxable weight which averages 273 lbs. These economical hoists are built for either back or side dumping, depending upon your need.

Save costly time and eliminate back-breaking labor by unloading with a HARSH HYDRAULIC HOIST engineered for economical, speedy, and durable farm use.

(From page 1)

took them to market. One housewife would pick out the largest eggs and ask to buy them at the standard price. "That was the first demand we had for graded eggs," he said.

In 1930, he said, his family got a $3 00 egg scale and sold graded eggs at three different prices. "Many of the farmers couldn't understand how we knew what we were doing, but pretty soon customers began to ask for eggs of a certain size and most of the other producers began to follow," he said And now the housewife demands a trade name, he added

Aaron Brubaker, Lancaster who said, "Boys are our business and chickens are our living." told the group he grades eggs at home because he has the equipment, he feels the loss between producer and processor is less, and the cracked eggs can be used by the family

Brubaker recalled the time when he peddled eggs on the street asking 25 cents for two dozen. "And still they turned you down," he said.

Reist then inquired of the processors how many ungraded eggs were purchased by the firms represented. When he was told one firm buys 90 per cent and the other firm buys 100 per cent ungraded eggs, he said, "Well, maybe we don't have anything to discuss after all"

Carl Dossin, Extension Poultry Specialist from the Pennsylvania State University was panel moderator.

Nut Tree Grafting Demonstrations Are Schedulad

University Park, Pa., Mar. 24—Twelve grafting demonstrations in as many counties will be conducted by the Pennsylvania Nut Growers Association as part of its pro gram for improving the state's edible nut strains.

The demonstrations, open to all interested persons, will be conducted by George G. Weber, York, association secretary, retired York county agent Weber announced today that the Penn State University extension service and department of agriculture are assisting in the nut improvement program.

The demonstrations start April 1, in Adams county, with the first one on the A. A. Straley farm, 1½ miles north of Littlestown, Highway 140, at 1 p.m. The others in Lancaster and nearby counties are scheduled as follows: April 7, 1 p.m., Lancaster county, farm of Jacob R. Hoover, Gap R.D. 2 April 8, 9:30 a.m., Lebanon County, Joe Bering Christmas tree farm, near Lebanon; April 13, 1:30 p m. in Berks county, John Rick home, Highway 83, between Reading and Bernville April 15, 1 p.m. York county, Valley View Nursery, 2 miles southeast of York.

● Delmarva-Geo.

(From page 3)

776 900 head at farms.

Estimated slaughter for the week end by Delmarva processors was 531,000 head compared with the 585,900 head last week end.

The Delmarva broiler-feed ratio for the week ending March 17 was up two points from the previous week at 3.9. Broilers brought 18 04 per pound and mash cost $94 02 per ton.

Georgia reported prices of 16 to 17, mostly 16 on 1,417,000 head at farms during the 24 hour period ending 10:30 Friday morning.

Estimated slaughter in Georgia during the week end is 1,501,000 head compared to the 1,739 head of last week end.

Time Application Carefully For Best Alfalfa Weevil Control

Under no circumstances should Dieldrin or Heptachlor be applied as an insecticide on any forage crop this spring, County Agent, M M. Smith said this week.

Dieldrin is recommended for use as a fall-applied control for both spittlebugs and alfalfa weevil, but heptachlor is not approved for use on any forage crop, Smith cautioned.

Where Dieldrin was used on alfalfa last fall, no spray application will be needed on the first cutting. Where Dieldrin was not used last fall, a Methoxychlor spray will be needed for the control of weevil and spittle bug.

The Spray should be delayed as long as possible for best control, but when general feeding by the larvae starts, farmers should be ready to move into the field The time will vary from field to field, but in most cases spraying date will be about May 10 Growers should keep close watch on the fields and not spray too soon. Reports indicate more fields are sprayed too early than too late.

Rate of application is three-quarts of 25 per cent emulsion of Methoxychlor in at least 25 gallons of water per acre.

Smith recommends that farmers have the Spray material on hand and ready to go to work when the time is right.

Frey Is Speaker At New Holland Baby Beef Club

(by: CARL E. WEAVER)

The monthly meeting of the New Holland 4-H Baby Beef Club was held Friday, March 17, at the home of Richard and Harold Lehman. President Richard Lehman presided over the business meeting, which included the decision that the club would hold its monthly meeting of the future in the Bareville Fire Hall, due to the increase of members in the club. Sponsoring the 4-H Magazine in a high school or local business firm was also discussed.

Comments and advice were given to the members by their four club leaders concerning control of insects and diseases prevelant in calves in this season.

Fred Frey, the evening's guest speaker, stressed the proper feeding programs, the importance of training, and exercise, and overall grooming of show calves that are necessary in producing the best results at show time.

The business meeting was adjourned and a short special program followed.

Penn Del Reliable Georgia Bell, a junior 2-year-old, Guernsey, owned by R. F. and L. A. Witmer, Willow Street R1, produced 10,150 lbs. of milk and 542 lbs. of fat in 300 days She was milked two times daily.

Plowing Contest Date Is Set

Allentown, Pa., March 24, The 1961 Pennsylvania Plowing Contest will be held on August 18 on the Donald E. Lichtenwalner farm, Macungie, R D. 1, Charles Slaton, Harrisburg, chairman, announced today following a meeting of the planning committee.

In the state meet new champions will be named in both contour and level land plowing On hand to defend their titles will be the 1960 champions, Morris J. Lebo, Millersburg, contour, and Frank Kocevar, Harrisburg, R D. 1, level land. They won last year's meet August 10 on the Frank J Dice farm, Chambersburg, R.D.4.

The plowing matches will be a feature of the annual Macungie Field Day, an event sponsored by the Macungie Grange.

Members of the committee in charge, with Slaton, include represetatives of the Agricultural Extension Service, vocational agriculture teachers, the host farmer, and other interested persons.

NEW SAUSAGE PACKAGE

A vacuum-sealed film package is the newest thing for wieners and other sausage products, reports Catherine Love, Penn State extension consumer economics specialist. Introduced by two major meat companies, the 12-oz packages consist of two separately sealed sections of four sausages each, bonded to make a single unit. Products in these packages stay fresh longer and retain their color and flavor.

WOODLANDS WIDESPREAD

Pennsylvania woodlands spread over more than half of the state, 53 per cent to be exact. This amounts to over 15 million acres. Of this acreage, 79 per cent is under private control.

The egg of most snakes increases in size about one-third after it is laid.
